

IC-45ND

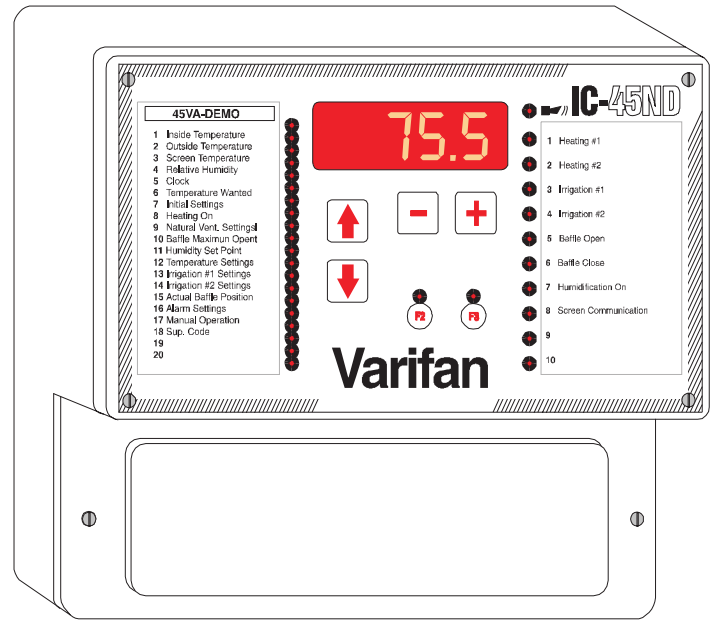

INTELLIGENT CONTROL

ADVANTAGES:

- Custom-made configurations
- Reliability
- Excellent quality/price value
- Lightning protection

FEATURES:

- Four outputs relay
- One alarm relay
- Four inputs probe with two selectable probes for 4 to 20mA
- One remote-controlled module port
- One PC communication port.

COMPATIBLE WITH:

FarmQuest
BY PAR MONITOR

Online monitoring
and management

PRINCIPAL FUNCTIONS:

- Static pressure and humidity control
- Monitoring of feed and water consumption
- Cool cell and heater operation, air inlet, curtain and inflatable controls
- Fixed and variable speed fan operation
- Ramping included
- All types of systems, such as, tunnel, natural, minimum and cross ventilation
- Alarm for High and Low temperature, faulty inputs or outputs and power failure
- Possible PC connection for data collection
- Locked and hidden parameters with supervisor security code
- Compatible with others Intelligent Controls

MONITROL

Manufactured by **Monitrol Inc.**
1291 Ampere St.
Boucherville (QC) J4B 5Z5
Canada

Tel.: 450-641-4810
Fax: 450-641-4631
Email: info@monitrol.com
www.monitrol.com

SPECIFICATIONS:

Power consumption: 10 W max.

Power Source: 115/230 VAC, 50/60Hz

Outputs (relays): 115/230 VAC, 10 Amp.

IC-410ND

INTELLIGENT CONTROL

ADVANTAGES:

- Custom-made configurations
- Reliability
- Excellent quality/price value
- Lightning protection

FEATURES:

- Eight outputs relay
- One alarm relay
- Four inputs probe
- Two external module ports
- One PC communication port

COMPATIBLE WITH:

FarmQuest
BY PAR MONITROL

Online monitoring
and management

PRINCIPAL FUNCTIONS:

- Temperature, static pressure and humidity control, monitoring of feed and water.
- Multi-purpose output operation
- Fixed and variable speed fan operation
- Ramping available
- All types of systems, such as, tunnel, natural, minimum and cross ventilation
- Alarm for High and Low temperatures, faulty inputs and / or outputs, and power failure
- Possible PC connection for data collection and monitoring from a distance
- Locked and hidden parameters using supervisor security code
- Compatible with others Intelligent Controls
