

Release Your Inner **GENIUS**

Electronic feed system for gestating **SOWS**

- » Simple on-site management and programming, or remotely through FarmQuest
Easy access to the chip's data, and to feed and water management
- » Equipped with bright LEDs to quickly visualize production information
- » 200 lbs / 91 kg reservoir
- » Anti-closing mechanism to prevent the unit from closing without a sow inside
- » Clearing bars to prevent sows from blocking feed access
- » Stainless steel leg bottoms

Easy access to the motor and water valve

Access your **CONTROLLER**
and production data from **ANYWHERE**
IN THE WORLD, 24/7

Industrial computer
for simple
on-site management
and programming

Elongated sides
ensure better
protection of working parts

ADVANTAGES :

- » Animal welfare
- » Accurate and individual food allocation and better feed freshness
- » Reduced feeding costs
- » Increase in births
- » Lowered maintenance costs
- » Lowered animal aggressivity
- » Rugged design
- » 15-20 sow capacity per feed unit
- » Simple operation by the sows themselves, offering them the possibility of feeding in a safe environment

In **CONTROL**, **24/7**
